Lyme is an indicator of an energetic pattern of bacteria affecting the body. It can be transmitted by mosquitos, pets, ticks or other biting insects. It is very hard to medically diagnose because of its ability to mutate in the body and it can become resistant to antibodies and in some cases be hard for the immune system to eliminate. Homeopathics, herbal anti-bacterial remedies, and the rife machine have shown to be beneficial in the destruction of Lyme bacteria.

Mental/Emotion indicates stress or emotional issues that are affecting organs, glands or systems in the body. Ph Balance indicates there is an imbalance in the interstitial fluid (or the body's internal terrain). When a person becomes too acidic the interstitial fluid becomes thick and jellylike and traps acids and toxins. This will cause an array of health problems. If a person is too *alkaline* it may be one of two things. Either they have been taking supplements to alkalize and the body can't keep up with the detox process and therefore the alkalizing process needs to be slowed down or they indeed are too alkaline (which is rare) and need to stop any alkalizing products.

Polarity Disturbance takes place when the spin of the electrons in our bodies becomes reversed. The most common reason for this is when there is an absence of vital minerals or electromagnetic disturbances.

This could be an absent of synergy (i.e. Vite A, D, E, K must have a fatty acid for transport, iodine must have protein for transport, Calcium must have magnesium, Vite D, boron, phosphorus and potassium to be used by the body for bone health). There may be disruption in the digestive process or a PH issue that hinders the uptake of the particular nutrient.

Urinary Disorder is an indicator that the Kidney, bladder or ureters are being compromised by pathogens (usually bacterial or fungal), ph issues, or circulatory or lymphatic issues. Alkaline water (1/2 your body weight in ounces) will flush the

kidneys and should be consumed daily. PH issues (being too acidic) will create a hardship on the Urinary system as well so it may be necessary to alkalize the body to assist the urinary system. Calcium and uric acid can accumulate in this area and create stones and circulatory issues which affect the kidneys.

Vaccination Disturbance – indicates some type of ill effect to a vaccination. This could be mercury used as a stabilizer or the pathogen itself creating issues in body functions.
